A Church Dinner.

Yesterday afternoon a New England dinner was served in the parlors of the Congregational church by the Ladies Aid Society. The dinner was well patronized and a considerable sum was realized for church work.

The Request Denied.

The trustees of the Methodist church petitioned the Town Board yesterday to be permitted to erect a wooden extension to the church building. As the edifice is within the fire limits the request was denied.

TO PROSPECTORS AND MINERS

A fine line of microscopes and optical instruments from 25 cents to \$2 at the Frank Golden Jewelry Store.

South American Mining Man.

Garcia, a prominent mining man of Chile and Commissioner to the Pan-American Exposition visited the Comstock yesterday accompanied by Mr. Tange of the same country. They desired to see the underground workings of the Comstock and were very enthusiastic over what they saw.

You people of Nevada have the most comprehensive and satisfactory mineral exhibit at the great exposition, said Mr. Cross. I am sure that you will reap many lasting benefits. Nevada is a wonderful State. You have on exhibit nearly every mineral that can be found in any of the other exhibits and the marvelous variety is an education in mineralogy. I assure you that I consider it a grand display. And just a word for your commissioner Mr. Yerington is just the right man to represent you. He is always courteous accommodating and interesting. The two gentlemen are on their way to Chile and will soon return to the exposition.

Excursions to Reno.

The excursions to Reno every Sunday from Truckee and intermediate points are being well patronized. This move by the company is proving of great assistance to business men of this city and is only another proof of the good feeling which the road has for this town. There should be reciprocity on the part of the Reno people. The time is near at hand when the company will do more for Reno than the silver and dream of ore can admit.

No Restraining Order.

At a meeting of the Town Board yesterday the question of a restraining order preventing the Nevada Light Power and Water Company from carrying high voltage on its wires in this city came up for consideration. The request for the restraining order was made by the Reno Water Land and Light company. After due consideration the Board declined to make the order.

Rain Will Help Business.

The Reno business men are praying for rain and the lowering clouds yesterday were much to their petitions. They will soon be granted. A spell of weather would stimulate all lines of trade. However, nobody has any cause to kick. Reno is getting at least its share of trade these days.

Very Poor Material.

Some complaint is being made of the sort of crosswalks that are being put in on some of the streets. Loose gravel, full of small boulders is in from being a perfect material for this sort of municipal improvement.

A HANDSOME PRESENT.

A beautiful line of elegant hand painted China at Golden's Jewelry store. Call and examine our stock, the finest on the coast.

FROM THE NEW CAMP

Tonopah News by The Journal's Correspondent.

Editor Journal—The new find near Tonopah is six miles south of town. More than fifty different locators went out Sunday and crowds went out today.

The rock is similar to Tonopah ore. The ledge is located on a high mountain. The formation is 250 feet wide and crops for 1200 feet. Good mining men say that the prospects are not very valuable. The formation is polyphylic phonolite.

Three miles square have already been staked out and more will be. Of course further developments may add to the value of this new find.

Other discoveries have been made six miles north east of town, which is near springs. The surface croppings are said to average \$62 in gold silver and copper. The croppings resemble those of Tonopah.

Pat Receives a Good Jolly.

H. A. McCarran, the youngest sheep man in Nevada, arrived this week from Reno with a shipment of sheep which he sold at a good figure to U. M. Slater & Co., Stockyards. Mr. McCarran only left the University of Nevada a year ago when he at once took hold of the stock business, and has made quite a success of it. He says that feed and water conditions were never better for stock and that the outlook could not be brighter. At present the Eastern sheep does not warrant the shipment of sheep from Nevada. Mr. McCarran's ambition is to gain a thorough knowledge of the legal profession but at the same time to stick to the "golden fleece." He is a remarkably bright and ambitious young man and no doubt his hopes will soon be realized.

Lawrence Buckley, Secretary for U. M. Slater & Co., had McCarran in tow while in town and spent Monday night showing him the "Elephant." Under the guidance of the genial Lawrence, who knows the ropes, it would be safe to bet that McCarran saw more of life in one night than he would see at the University in a year. —Butchers & Stockgrowers' Journal

FAR FROM PACIFICATION.

THE reverse that a company of American soldiers met in Samar, a short time ago has given the authorities a good deal of uneasiness in regard to the situation in the Philippines. It was the most disastrous battle since our troops reached the archipelago, and came as a great shock for that reason, if no other. The authorities have been very optimistic as to the situation there from the first. While no man without an opportunity for observing, could say they were unwarranted, history gives no account of such quickness in obtaining complete sovereignty over 10,000,000 people who had been struggling for national independence so long as had the Filipinos. Ten millions of people, among them the doctrine of independence and self-government had been successfully promulgated, are a good reason to be converted to subjugation by overawing or moral suasion in the comparatively brief time we have been about it. They were a people not the quickest to understand and whose whole training had been to mistrust sovereign promises, even when made less vaguely than ours have been. It was much to expect that they could be induced to meekly accept our sovereignty, however benign, or to be coerced into it in a few months, which fact appears clearer now than ever before. The remark of an army officer of long service there, recently returned, to the effect that we would not live to see the Filipinos completely pacified under American sovereignty, was more in accordance with what might logically have been expected. It is true that many of the most influential have taken the oath of allegiance, but it is admitted by foremost imperialists that they were prompted to it from expediency rather than in sincerity.

But because such disasters as this had been escaped, our authorities had of late become even more optimistic, and there was talk as by Gen. Corbin that the only mission of our soldiers there now was for moral effect and that the number could be largely reduced at an early date. It is not in Samar alone that the insurgents have made serious trouble; in upper Luzon the natives have attacked the troops, and the worst form of guerrilla warfare prevails in Batanzas. In another quarter a new branch of a "society of assassins" is reported and so it is all along the line of outside provinces. There is yet a big problem in the Philippines and it is neither remarkable now, nor strange that there should be. Had they been assured of self-government, as were the Cubans, the problem would have been of a very different nature, and the situation less serious. But that has never been done, and in many quarters late has been ended which will not die out until smothered by death. Until it is done, complete pacification cannot be enjoyed, and the authorities are now more keenly realizing that fact than ever before.

DREYFUSS AND SCHLEY.

IN some respects the Schley matter is similar to the Dreyfuss case, the exposure of which so aroused the people of this country, when the story was told of the official conspiracy to degrade a brave officer, that was brought to light in France. The same thing is coming to light here, except that the conspiracy has not been carried so far, and the punishment is not so great. But the purpose in the case of Schley was as malignant as in that of Dreyfuss. From the time Sampson was given a command over Schley, though lower in rank, it has been plain that there was a clique in the navy department, that was determined on injuring Schley and boosting Sampson. This might have been a piece of professional jealousy in the first place, but it became something more by the Secretary of the Navy accepting the views of the conspirators, and joining in the attack on the man who wins battles for his country. Not only have there been newspaper attacks that emanated from the department, and some official attempts to discredit him, but when his counsel commenced investigating the records of the department, they found that the official records of vessels had been changed, and Schley's own telegrams had been mutilated to make it appear that he was guilty of the charges made by his enemies.

Dreyfuss was a young man just beginning his career in the French army, and was sacrificed because some one must be sacrificed. Schley is a veteran of two wars, an officer with a long and honorable record, the man who was in command when the Spanish fleet was destroyed at Santiago. If the naval department was not immune by reason of the frequent scandals that have disgraced it, Long would go into retirement at the end of the pending Court of Inquiry, and others would have hard work to clear their skirts.

AND now the sugar trust is accused by the Illinois Pure Food Commission, of adulterating certain brands of its products with a mineral injurious to health, known as barytes. Not content with the enormous profits which are attainable by furnishing a pure article, the soulless monopoly still further swells its coffers by poisoning the people. The avaricious whisky seller who vents his two-dollar-a-gallon distillation for twenty five cents per glass

and doubles his stock by pure water "adulteration," is a paragon of righteous liberality and a model philanthropist, compared with the billionaire combine that poisons for pelf, an article which is a necessity of life, but which in its insatiable greed it transforms into a messenger of death.

THREE CENT pieces are to be coined by order of the mint authorities. We predict that they will prove a greater nuisance than the three dollar pieces, a limited number of which were minted fifteen or twenty years ago, but which were soon afterwards called in and put out of circulation. In the section where nothing smaller than the nickel five cent piece is used, they will not be circulated, and in the States where cent pieces are used for change, they are not necessary for that purpose, as an intermediate coin. The three cent piece will prove as short lived as did its golden multiple of one hundred.

IT HAS been finally determined by the court of inquiry that the Spanish did not win the battle of Santiago. Whether it will ever determine who did win it is problematical. Perhaps it will decide that it was won through the moral influence of Sampson, whose good wishes were probably with the American boys, even if he was several leagues away.

IT IS certainly very rude in Massachusetts people, when Senator Hoar makes a speech declaring what he is in favor of, to rise up in the back part of the house and ask him how he will vote. It is said that this rudeness is often committed, but the legislature re-elected him last winter, notwithstanding the fact that he talks one way and votes another.

THE BEE says that a number of Sacramento clergyman met privately and endorsed George Clark for Mayor. According to the Bee, Clark is a protector of gambling and nickel-in-the-slot machines, but has evidently hypnotized some of the men of God in the interest of the devil.

A Few Gleaned Paragraphs of Nevada News.

Charcoal is being hauled from Pine Nut to the Comstock.

Lumber for the construction of the new Catholic church at Yerington has been delivered there.

Mike Casey, one of the most esteemed residents of the Comstock, is very low with miners' consumption.

The Donnan says Tonopah has 105 frame buildings and 175 tents. The population is estimated at 1000.

A government surveying party has decided upon two reservoir sites on the North Fork of the Humboldt in Elko county. Surveys on the South Fork will now be made.

The decision of the Supreme Court in the matter of testing the new game law was to have been decided this morning, but owing to absence of attorneys was postponed until tomorrow. —Carson News.

At Gardnerville a few days ago a ranch laborer stabbed a companion who refused to lend him money. The weapon used was a pocket-knife. The knife-wielder was arrested and his victim will probably recover.

A Carson cigar factory is doing a big business these days. It employs union labor and the cigars made are in great demand on the Comstock, where there is an active boycott in operation against Chinese non-union cigars manufactured in San Francisco.

Miss Daisy Matthews has begun a \$2,000 slander suit against Thomas Smith, a barber of Deeth, Elko county. In addition to the suit a friend of Daisy's gave the barber a severe beating a few days ago, and when her friend was arrested Daisy paid the fine.

WHAT'S YOUR FACE WORTH?

STEPPED INTO LIVE COALS.

"When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by S. J. Hodgkinson, 26 cents.

TOT CAUSES NIGHT ALARM.

"One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. Fifty cents and \$1. Trial bottles free at S. J. Hodgkinson's drug store.

A FIENDISH ATTACK.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50 cents at S. J. Hodgkinson's drug store.

MINING IN THIS STATE

Culled News of Nevada's Most Important Industry.

Steam is up at the new hoisting plant at the Ludwig mine in Mason Valley.

The Tonopah Company is contemplating putting up a telephone line between Tonopah and Candalaria or Savaville.

The trial of the Southern Nevada Gold and Silver Mining Company vs. the Holmes Mining Company has been set for trial at Hawthorne on December 12th.

The scheme of extending the Sutro tunnel into the American Flat district is the true one for the advancement of the Comstock and all the country in this vicinity. The execution of that plan would mean a new Comstock that would be a close rival of the old.

The following is clipped from a recent issue of the Salt Lake Herald: John Dern is in receipt of some very rich specimens of free gold ore from the 50-foot level of the Dexter property, in the Tuscorara side. The vein was opened on that side at the depth named about one month ago and the specimens sent over by Superintendent McKenzie are thought all the more of because they show that the rich bodies opened on the 100 level go down and hold their splendid values.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed or brain; another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. C. Green's reliable remedies at Hodgkinson's drug store. Get Green's Special Almanac.

Told by Pain

If you have pains you should look after them quickly. Pain shows something is wrong. The sharper the pain the more danger there is in delay. There are thousands of women to-day who are bearing awful pain almost continually, rather than tell a physician about the shooting pains in their lower abdomen, about the agony of falling of the womb and the distress of leucorrhoea. They let the months pass and their trouble becomes harder to cure and more distressing. But modest women can secure exemption from the embarrassment of a private examination. When pain tells them of danger they can cure themselves by the use of

WINE OF CARDUI

In the privacy of their homes. You can be cured without distressing publicity. With these facts before you there is no reason for the delay which is increasing your misery and wasting the days of your life. Why not stop the pain today?

I have used one bottle of Wine of Cardui and one package of Theodor's Black-Draught. Before I began to take your medicines I had pains in my back, hips, lower bowels and my arms. Sometimes I thought I would go blind. My head ached and I was so weak I could hardly walk across the floor. Now I can only feel a little of the pain in my side and I am going to use your medicines until I get cured, for I believe they will certainly cure me. I have been married twelve years and am the mother of seven children. I thank you for your wonderful medicine and what it has done for me.

Wadsworth Plumes refuse to work for less than \$1.75 per day.

A high-grade ore strike is reported in Esmeralda county, 8 miles from Silver Peak.

A. H. Barlow has been appointed a Notary Public at Candelaria, Esmeralda county.

Searchlight, Lincoln county, now has two new mills and five mines with large quantities of pay ore.

Notwithstanding that H. J. Thyges has been defeated for fire marshal he still has oyster cocktails on tap.

The White Pine News is replete with amusing news of that section and there is something doing there these days.

The purchasers of the group of mines in Tonopah expect to collect the \$336,000 paid for the property in royalties by January 1902.

The Taylor mill is dropping stamps on ore from the Lager Beer mine, where there has been an improvement in the grade of that recently extracted.

Ben Rose was killed at Hobart Mills Sunday by being run over by a caboose while trying to save the life of another man who had fallen under the wheels.

Pollard's mill is dropping fifteen stamps on Silver Hill and other custom ore, and is pronounced the best equipped mill in the State for handling gold-bearing ore.

The body of the man who fell from a train near Lovelock several days ago was found by Constable Walsh about two miles from the scene of the accident two days later.

A marriage license has been issued at San Francisco to William T. McClain and Alice G. Plant. The bride-to-be is the daughter of John Plant, at one time foreman of the Enterprise.

The Jackson mill is dropping stamps on ore from the Dayton mine where a broad ledge of low grade has been developed above and below the tunnel level. The mine is worked on royalty.

Last Sunday Bob Apsey and W. E. Sanders were arrested at Yerington on a charge of selling whisky to Indians. Apsey is an ex-District Attorney of Churchill county and at one time was quite wealthy.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order at a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Bogachev's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store. Get Green's Special Almanac.
